

# ENVIRONMENTAL

At Pacific Steel & Recycling, we strive to be the best environmental stewards we can be in the communities we're a part of, as demonstrated by the following:

- Our excellent record with EPA's Enforcement and Compliance History Online - ECHO. 
- Our compliance with federal and state storm water, spill prevention, and tier II requirements. 
- Our annual diligence assessment of SREA downstream buyers to ensure regulatory compliance. 
- Our source-control efforts to ensure responsible recycling and proper disposal of prohibited items. 
- Our proper handling and responsible downstream of cfc's used fluids, and lead acid batteries. 
- Our commitment of responsible disposal of mercury switches through ELVS. 
- Our quality assurance testing of soil prior to disposal and public or private landfills. 
- Our certification as a R2/RIOS qualified electronic recycler. 

*Over 100 years of serving our communities!*

*Quality Assurance*

Health, Safety, Environmental, & Transportation

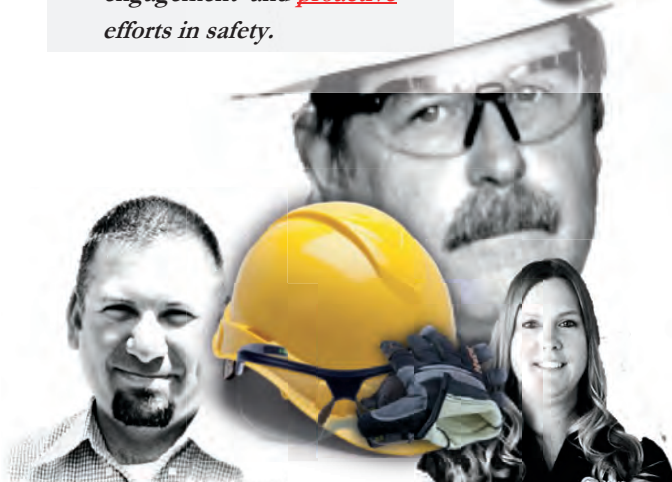

# HEALTH & SAFETY

*Protecting our employee-owners and customers is a top priority at Pacific Steel & Recycling as reinforced by our mission of “working safely or not at all” and demonstrated by...*

- Our voluntary participation in OSHA’s Federal/State consultation programs.
- Our membership to the “Circle of Safety Excellence” program with ISRI.
- Our certification and compliance with M.S.H.A. Standards where applicable.
- Our membership to MSCI’s National Safety Committee w/ other top safety professionals in the steel industry.
- Our Annual Safety Summit devoted to ongoing safety training of our people.
- Our “Safety Excellence Award Program” that offers incentives to Branches for employee engagement and proactive efforts in safety.

# TRANSPORTATION

*Our fleet may look a bit different today than it did in the 1900’s, but our Company Commitment to safety on the road has never changed.*

*With over 2,500,000 miles driven each year, our commitment to fleet safety is reinforced by...*

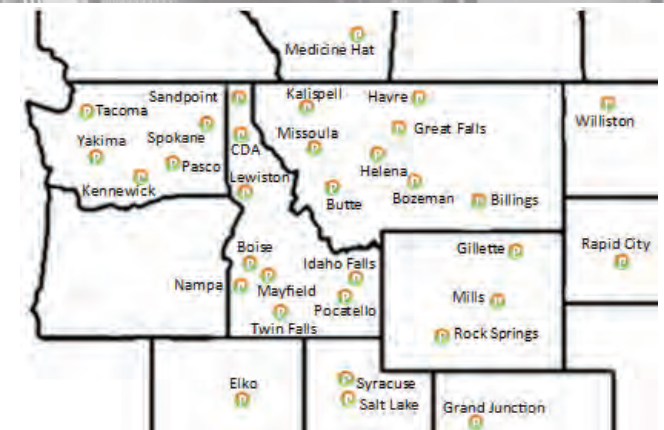

- Our recruiting and selection process for drivers and the use of FMCSA’s “Pre-Employment Screening Program.”
- Our partnership with Telogis and implementation of their industry leading fleet safety monitoring technology.
- Our FMCSA’s Inspection Selection System (ISS) Score being in the top tier (1-49) for good safety performance based on our CSA scores.
- Our “Out of Service” (OOS) rate consistently ranked below the national average for motor carriers.
- Our “Own the Road” toolbox talks offering drivers continued education and awareness of fleet safety.
- Our “Clean Inspection Award” Program for CDL drivers offering bonuses for clean level I and II inspections.

*Be Assured*

*Responsible Stewardship  
Across Our Footprint!*
